Lieutenant Ewing Waterston, son of the great editor, was married to a handsome Cuban girl August 15. The ceremony took place in Philadelphia where the bride's parents now reside. Soon after the union the couple left for Louisville to visit the parents of the groom.

The Transportation Committee for the Triennial Conclave, to be held in Louisville August 27 to 30, has secured concessions from all the railroads entering the city. A rate of one fare for the roundtrip will go into effect, and even a lower price than this will probably be given people living within a radius of 200 miles of Louisville.

Several large Knight Templar commanderies have included in their itinerary which embraces a pilgrimage to Louisville a number of side trips into Kentucky, Tennessee and Indiana. The Knights are good spenders—they leave about \$1,500,000 behind them during every Triennial—and both the Hoosier and Blue Grass States will profit by the holding of the Conclave in Louisville.

C. E. Sapp is now down in the gill. He caused to be circulated by C. G. Vogt, a gold Democrat, would be nominated by the Republicans of Louisville for Mayor of the city. Mr. Vogt hearing of the report announced that he would not only refuse the nomination but he would vote for Mr. Granger, the Democratic candidate for Mayor. This statement greatly satisfied Sapp and his followers and they are all at sea.

Born, to W. P. Walton, editor of the Harrodsburg Democrat, on the 18th inst., a semi-weekly. It was in full press and as lively as its mother, the lady who has been giving to the public sound Democratic doctrine for the past two months. The new advent is a perfect counterpart of the parent, and what it will do for those who are not walking in that straight and narrow path, will be sufficient. An automobile is on exhibition at our Fair, which opened yesterday, and if she were here we would place her upon the front seat and let the vast assembly view the handsome garment.

The outlook for the Democratic party, in this State, is brighter than at any other time in the last six years. This may seem to some, who have failed to watch the trend of both parties, a rank assumption, but, rank as it may appear, it is a fact. In 1886 Mr. P. W. Hardin, a candidate for the nomination for Governor, led in the advocacy of the free, unlimited coinage of silver—he stirred the party and brought along with the stir a division that lost the State, that resulted in the election of Mr. Bradley. Mr. Hardin's fight for free coinage in State campaign, particularly at that time, when the party had not time to thoroughly investigate was a mistake and not only proved disastrous in that fight but lost our electoral vote in the following year. Since then rivalry for leadership and honors brought other troubles, and in 1890 reached its height and most bitter point which sent thousands of good Democrats out of party lines and initiated their efforts to defeat the Democratic nominees for no other reason than the manner in which Mr. Geibel received his nomination. All these troubles have passed. The money question has, at least, been eliminated from State and county campaigns; no Democrat is now asking and demanding the views of candidates on National questions, therefore ninety per cent. of the Democrats who parted from their first love in '90 will linger longer in the camps of the common enemy. But better still, the bitterness of the '90 campaign has passed. The rights and demands of the minority have been granted; the methods that dominated in our party then have been left behind, thrown over the dash board, and those who left the nominees in that struggle have no grounds for complaint in the recent actions of our party. They are all considered Democrats, the gold man, the silverite, the Hardin men, the Geibel men and the Democrats who voted for Brown can now all unite and will unite in the struggle to overthrow the party that enjoyed the good things of Kentucky while we were fighting out our own troubles. Again, the recent action of the Republican party in Louisville is admitted to be one of the most corrupt games ever revealed in this or any other State. It shows that the Republicans party is not the home of all that is pure and good; that its leaders are as corrupt as mortal man can be. The Democratic party has had some severe experiences in this State, shattered to fragments, divided and defeated! Wars are often fought within, but it has suffered far more for all its sins, and now and for many months past it has adopted the scriptural injunction—"let the dead bury the dead." It does not bring up the trouble of the past, it seeks peace and has planted itself on that broad and liberal platform—equal and exact justice to all. This year will show an old time majority—a victory from a renited Democracy.

A special dispatch from Washington says: Secretary of Treasury Gage is going to Canton in the near future to talk with the President about various terms, one of which will be the removal of Collector Sapp and the appointment of his successor. The Secretary will make this trip about the last of the month and immediately upon his return the name of the next Louisville will be announced. There is no doubt but that the President intends to make a change. He would like very much for the Kentucky politicians to agree upon one man for the place. If they cannot agree at an agreement he will appoint whom he thinks best. The lucky man may be a dark horse. This is admitted by a strong supporter of one of the leading candidates.

Hon. Thos. W. Simms, Jr., of Springfield, Ky., died last Wednesday morning after an illness of five weeks, his affliction being typhoid fever terminating in pneumonia. The deceased will be remembered by a number of our citizens as having spoken here one night during the last gubernatorial contest. The deceased was prominent in politics, being a member of the Democratic State Central Committee, Chairman of his County Committee and Master Commissioner of the Washington county circuit court. He was also a lawyer who did a good practice.

The trend of political affairs indicate that the Tariff question will be an important issue in our next National campaign, and should it become the bone of contention between the two forces, we feel certain that the American people can and will vote intelligently on this important question. When the Tariff question became the main item between Cleveland and Blaine an old country gentleman went to his county town, one day, when the smart alecs were discussing the Tariff. He listened patiently and from the discussion concluded that Tariff was a person and in the fight for the Presidency. On his way home he informed a neighbor that politics were getting hot in town; that Cleveland was a candidate, Blaine a candidate and old man Tariff was running. This complication greatly confused the old man but he finally found out that old man Tariff was something that he could not understand but a question he must decide. Thousands and millions of voters have supported old man Tariff under his protective garb but since they have felt his heavy hand of oppression in the forms of combines and trusts they stand willing and ready to vote him out.

A bad woman and a pistol are two dangerous things. John Marshall, a prominent and wealthy farmer of Jessamine county, was shot and instantly killed in Nicholasville last Wednesday by J. E. Higgs. The trouble dates back to the time Mrs. Marshall, wife of the dead man, eloped with E. Milton Van Avery, to whom she was married in Jeffersonville, Ind. Higgs is said, passed a note from Avery to Mrs. Marshall not knowing the nature of it.

### FROM TEXAS.

KRUM, TEX., Aug. 12, 1901.  
Editor of the News:

I thought perhaps it might interest some of my old Adair friends to send a short sketch from this part of Texas. Krum, the little town in which I am located, is comparatively a new place, situated on the Gulf, Colorado and Santa Fe R. R., about forty miles north-west of Fort Worth. We have a quiet little town, strictly prohibition—have good schools from six to eight months in the year, one nice church building and two more will be built in the near future; they have two large elevators in the town and are just completing a \$20,000 roller mill and elevator which will be quite a convenience to the farmers of this part of the country. Last year they shipped out from this place 900 cars of wheat, about 700 bushels to the car.

The soil of Denton county is adapted to the production of small grain, but owing to the green bugs and dry weather, the wheat and corn crop are almost a failure this year. The cotton crop is looking well, beginning to open. Picking will commence the last of this month and will continue till spring.

On July the 27th fifty-three Krumites and myself boarded an excursion train for the Arbuckle Mountains, about 160 miles in I. T. Left Krum at 8 o'clock, arrived in the mountains at 12; on a little refreshment, a cool drink of nice clear water that bubbled up from two large rocks which I have not had the pleasure of doing before since I left my old Kentucky home months ago; then on foot we climbed up the mountain, when we reached the top we were permitted to view a vast amount of the Indian Territory. We could plainly see the thriving town of Armstrong forty-five miles away. After descending the mountains taking the boy to a bath in the Washita river. We started home at 7 o'clock, about 600 in the crowd and all said to be having a good time; we landed in Krum that night at 12 o'clock. I felt as near worn out as if I had been squirrel hunting g on the Harvey ridge, in fact, I saw some country that reminded me of that part of the world.

Success to The News for it gives me many interesting sketches from old Adair and adjoining counties and is anxiously looked for every Sunday morning.

### FROM KANSAS.

CANACHEESE, KAN., Aug. 12.  
Mr. Editor:—After so long a delay I will try to write you a few words. We have been laboring under a very heavy drought, but it is now broken with a fine rain.

Wheat was good in this portion of the country, averaging from 25 to 30 bushels per acre. I raised and threshed 10,000 bushels and have a little more to thresh yet.

Corn is almost a failure; to cut it up it will make good feed. The crop of oats is light. There are a good many castle in this country, but in spite of the dryness, there will be plenty of rough feed for the winter.

I have lived in South-Central Kansas, most all the time since I left Kentucky. My occupation is principally farming and feeding cattle. I like the climate of this country and also the people. I would like very much to see my friends & relatives in Adair, and expect to visit them soon.

People of Taylor county continue to pay the interest of their railroad tax, but a citizen of Columbia is representative of this paper a few days ago, that in his opinion the whole trouble would be adjusted in a very short time. **Triennial Concclave.**  
The official program for the Twenty-eighth Triennial Concclave of Knights Templar to be held in Louisville the last week of this month was announced Thursday morning by the Executive Committee, which has had over \$100,000 drawn to make the features of entertainment attractive.

The week will open Sunday, August 25, with public worship at the Broadway Methodist church, conducted by Very Eminent Sir J. C. W. Cox, of Washington, Ia., Grand Prelate of the Grand Encampment.

This is a function that will be repeat, each afternoon and night during the concave, 400 well-known Kentucky matrons and their daughters serving on the reception committee at each one.

Tuesday morning the big parade will take place. At night there will be a reception at the Masonic Widow's and Orphan's Home, the pioneer lastation of the kind in America; an entertainment at Confederate Hall entitled "Darkies A Merle," showing the song and dance side of the Southern darkey under the personal direction of Col. The competitive drill, the first since the San Francisco concclave in 1883, is scheduled for Wednesday at Churchill Downs, where the Kentucky Derby is run every spring. The five trophies, costing over \$7,000, were put on display by local jewelers this morning. Commanderies from San Francisco, Denver, Chicago, Cincinnati, Parkersburg, W. Va., Pittsburgh and Washington are entered in the drill. Four United States Army officers will act as judges.

On Thursday night the grand ball will be given at the Horse Show building. Mrs. J. C. W. Beckham, of Frankfort, the Governor's bride, will be one of the matrons of honor.

Friday will be devoted to visits through Kentucky to the Blue Grass region and Mammoth Cave.

#### Engagement Announced.

A Washington telegram to the Inter Ocean says:

Mrs. Mary E. Blackburn, for several years a clerk in the Quartermaster General's office of the War Department, has resigned her position, in order to become the bride of Joseph C. F. Blackburn, United States Senator from Kentucky. She is now at Cape May, N. J., as the guest of the Senator and his daughter, Mrs. Hall, wife of Col. William P. Hall, of the army. The date of the wedding is not announced, but it is expected to take place some time before the assembling of Congress next December.

Mrs. Blackburn is the widow of the late Judge H. H. Blackburn, of Martinsburg, W. Va., a distant relative of the Kentucky Senator.

Judge Blackburn was the law partner of Ward H. Lammon, who was associated with President Lincoln as a law partner. Mrs. Blackburn was born in Baltimore, but has resided in Washington most of her life. Her husband died about four years ago.

#### Was Blind 32 Years.

After being totally blind for a period of thirty-two years, Wash Stults, of Fairfax, Ohio, has suddenly recovered his eyesight. Mr. Stults is 88 years old and when 30 years of age lost his sight. Since that time until now he was unable to see and could barely distinguish day from night. Expert eye specialists worked hard to restore his sight, but each time they failed. He was seated at his home the other day, when suddenly everything before him became visible. At first he could not believe that he could really see and thought perhaps it was an illusion. He waited patiently for some time and gazed in wonder at the pretty flowers, at the street cars whirling past the door and at the happy children, romping about on the lawn. He however, could not recognize his family by sight until he heard them speak. After waiting a long time he finally broke the good news to his family, and there is great rejoicing in his home.

#### No Protection for Trusts.

The Washington Post, an independent paper, with Republican pronunciation, seems to have a clear appreciation of the situation. It says it regards to trusts and combines:

"The principal aim now is to reach the trusts, and no more effective way suggests itself than by depriving them of tariff protection. This protection gives them complete control of the American market and consequently outrageous profits on what they sell at home, while at the same time it leaves them in a position to sell their surplus product at reduced profits in foreign markets—thus figuratively killing two birds with one stone. In all of this the American consumers who are outside the pale of trust protection are the ones upon whom the burden of the injustice chiefly falls. These constitute a vast majority of the people, and if they choose to apply a remedy they have it in their power to do so."

Another increase occurred in the American invisible supply of wheat last week, as was assured by the heavy industrial movement. The gain of 1,399,000 bushels raised the total above thirty million. Rumors of frost in the Northwest was not taken seriously, but the market steadily advanced on the large demand from domestic mills and the vigor our exportation. Losses abroad have undoubtedly been considerable, and this country will be called upon for heavier shipments than at any previous year. The July movement at about the rate of 230,000,000 bushels for twelve months.—Dun's Review.

Under the new congressional apportionment, West Virginia, a closely contested state, will have three Republican members. Washington and California are two states which have not reached an agreement upon representation. Each state gets one additional representative, and in the campaign of 1902 they will be elected at large.

The number of males of voting age in Kentucky is given at 545,996 by the census return of 1900. There are 74,700 negro voters.

#### I Saved His Baby.

"My baby was terribly sick with the diarrhoea, we were unable to cure him with the doctor's assistance, and as a result we tried Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Rev. A. A. Power, of Emporia, Kan. "My neighbor across the street was sick for over a week, had two or three bottles of medicine from the doctor. He used them for three or four days without relief, then called in another doctor who treated him for some days and gave him no relief, so discharged him. I went over to see him the next morning. He said his bowels were in a terrible fix; neither had he been running off so long that it was almost bloody flux. I asked him if he had tried Chamberlain's Colic, Cholera and Diarrhoea Remedy and he said, 'No.' I went home and brought him my bottle and gave him one dose; told him to take another in fifteen or twenty minutes if he did not feel better, but he took no more and was entirely cured. I think it the best medicine I have ever tried." For sale by M. Cravens.
